Dear Mr. Briggs:

I understand that our staffs have discussed a request from a Mr. Edward Deppe, relating to his desire to compete and obtain contract awards from your Agency. I have met with Ed, who is President of Advanced Machine Intelligence (AMI), and reviewed his company's capabilities statement. I would hope that your office or the appropriate officials at the Agency could do the same.

Owing to the nature of your "business," I do not imagine contractor relations and associated bid advertisements follow the normal governmental procedure. In any case, I would very much hope that you could review the materials forwarded with this letter, and contact Mr. Deppe in this matter. Your assistance and judicious consideration will be most appreciated.

Sincerely,

Rudy Boschwitz

2. Mr. Deppe stated his company was comprised of 10 staff members, 5 of whom are programmers. Nine are located at the home office in Minnesota and one in the D.C. area. They develop software in the areas of business, communication, artificial intelligence - process control and encryption. Our representatives from OIT informed Mr. Deppe that his company was too small to handle the majority of the work they would contract out, but that they would certainly keep him in mind if anything came up that his company could handle. The Office of Communications questioned him about a fiber optics capability but Mr. Deppe was reluctant to discuss this. Mr. Deppe was also referred to [redacted] of the Office of Research Development, DS&T by [redacted] of the Office of Legislative Liaison, DCI. Mr. Deppe cancelled two meetings with [redacted] and attempted to reschedule our meeting fifteen minutes prior to its start, as he had scheduled his third meeting with [redacted] for the same time.
